

# SPRINT REVIEW CANVAS

Sprint

Team

## 1 The Sprint

What was the sprint goal?  
What was not "done"?  
What was "done"?

## 2 Challenges

What challenges did the team face?  
How did they overcome them?

## 9 Success

How will we know we are succeeding?  
Have we achieved something worth celebrating?  
How will we maintain transparency?  
Has the product backlog been updated?

## 3 Feedback on the increment

What feedback did the stakeholders give?  
What changes to the features are required?

## 8 Next sprint

Are there any defects that need prioritising?  
What is the most valuable thing to do next?  
Are there any outstanding risks to be mitigated?

## 4 Targets and delivery

What targets are we trying to achieve?  
When are we likely to deliver?

## 7 Next releases

Are there any regulatory or legal changes upcoming?  
Are there any key dates and milestones upcoming?  
What are the next set of product capabilities?  
What is the state of the product budget?

## 5 Empirical Data

Are we delivering value?  
What does our quality data tell us?  
What does our productivity data tell us?  
What does our responsiveness data tell us?  
What does our customer satisfaction data tell us?

## 6 Marketplace

How will the product be used?  
How is the marketplace changing?  
What is happening in the marketplace?
